WORK EXPERIENCE

Web Developer Intern at Kigali Appline Ltd
September, 2019 – March,2020

Collaborating with senior-level developers to develop and maintain websites and applications, including content updates, account administration, testing, feature enhancements and documentations, debugging and regular upgrades to ensure web security and system stability.

eCommerce Website
Node, Express, MongoDB, React, CSS3, Bootstrap4

Built and hosted ecommerce CRUD application with user and admin dashboard, here customers can create profile and buy Products with two payment options such as credit card or PayPal.

Covid-19 tracker Website
React, React-hooks, CSS3, Bootstrap4

React app created by using create-react-app. It tracks the number of infected, recovered and dead people globally or by country and it is deployed to netlify.

Real Estate Website
Node, Express, MongoDB, React, CSS3, Bootstrap4

Developed and deployed a Real Estate CRUD application with user and admin dashboard, agents are able to list different properties so that customers can contact them to buy or rent.
